## List of Employee Training

Employers in Corona have the ability to garner training from regional and state workforce training entities. The process is made simple by having economic development introduce the partnerships and support the business community. There are millions of dollars allocated to workforce training, which the City of Corona is committed to helping local companies attain.

### [Corona Business Assistance \(CBA\) SCORE Program](#)

Whether it is a business plan, cash flow problem, or a loan, SCORE can help. Take advantage of SCORE's unbiased, confidential, and FREE premier business advice program. As Counselors to America's Small Business, you get to draw from the experience of more than 10,500 volunteers ranging from Fortune 500 executives to entrepreneurs who have succeeded in business.

### [California Manufacturing Technology Consulting \(CMTC\)](#)

California Manufacturing Technology Consulting (CMTC) has state funding to offset the cost of high-quality, customized training solutions. Training includes classroom instruction and practical, hands-on training provided at your worksite using actual work tasks that apply the training to your work environment. Courses are customized to a company's specific needs and we offer training in a wide range of topics, including:

### [Employment Training Panel](#)
